About Us

We are an owner/operator and EPCI (Engineering, Procurement, Construction, and Installation) general contractor of floating production systems including Floating Production Storage and Offloading (FPSO) units, Floating Storage and Offloading (FSO) units, FLNGs, Tension Leg Platforms (TLPs), SemiSubmersibles, Mooring Systems and new technologies which will meet the challenges of gas production floaters.

Reference Name

Occupational Health Services

Scope of Work

This scope covers the provision of occupational health and emergency medical services for MODEC Guyana's onshore operations and offshore FPSO activities. The services include fitness-to-work and role-specific medical assessments, health surveillance, drug and alcohol testing, tuberculosis screening, vaccinations, emergency response, ambulance and medical escort coordination, case management, and health promotion. The vendor will also provide offshore medical staffing and manage the FPSO hospital under a Total Care model covering medical equipment, supplies, maintenance, calibration, inventory, reporting, and procurement logistics. Services must be delivered by qualified and appropriately licensed personnel, with medical records and personal information managed confidentially and in accordance with applicable privacy requirements.

Requirements

1. The vendor shall provide occupational and emergency medical services for MODEC Guyana Inc.'s onshore operations and offshore FPSO activities and describe its relevant experience in Guyana and the offshore oil and gas industry.
2. The vendor should provide pre-employment, fitness-to-work, periodic risk-based, return-to-work, post-illness, post-injury, ad hoc, role-specific, and psychological health assessments, as applicable.
3. Medical assessments shall include relevant medical and occupational history, clinical examinations, and any additional tests needed to determine fitness for work. The vendor shall provide or coordinate OEUK assessments, tuberculosis screening, drug and alcohol testing, vision and hearing tests, urine and blood tests, chest X-rays, ECGs, cardiovascular screening, and vaccinations, as clinically indicated or required.
4. The vendor shall provide occupational health advice, health surveillance, and recommendations on medical protocols based on role-specific duties, hazards, and health risks and coordinate emergency medical response, initial assessment and care, ambulance services, helicopter medical escort, and patient transport, as required.
5. The vendor should provide medical case management and hospital assistance for MODEC employees and contractor personnel, as agreed, and provide or support a medical call centre/alarm centre service and the Medical Emergency Response Plan (MERP).
6. The vendor shall provide qualified offshore health professionals and describe the proposed staffing model, coverage, and personnel qualifications. Staffing and manpower shall be identified and priced separately from the Total Care fee.
7. The vendor shall manage the FPSO offshore hospital under the Total Care model, including patient care, medical documentation, and relevant crew medical records and certifications.
8. The Total Care service shall include medical equipment and consumables, preventive and corrective maintenance, calibration, servicing, inventory management, weekly reporting, procurement coordination, and shipping and handling to MODEC's designated onshore location, along with other management activities required to maintain service continuity.
9. The vendor shall describe its proposed implementation and mobilization plan, service coverage, response arrangements, reporting, assumptions, exclusions, and any deviations from these requirements.
10. Maintain offshore medical equipment and supplies, including documented maintenance, calibration,

• Submission of an EOI is not and shall not be deemed as MODEC's commitment to enter into any agreement with any Potential Supplier.

MODEC

inventory controls, and service continuity; provide respiratory fit testing and training, and manage audiometric testing.
11. Provide qualified, licensed personnel and appropriate procedures and quality controls; identify relevant laboratory, facility, and service certifications or accreditations.
12. Protect confidential medical information in accordance with applicable privacy laws, including the Guyana Data Protection Act 2023 and GDPR where applicable; provide agreed reports and fitness outcomes, and support health campaigns and alerts.

Instructions

1. Potential Supplier who wishes to participate are required to proceed to MODEC vendor portal and reply our official RFI questionnaire on the following link.
2. In order to reply the questions and formalize the EOI, the vendor needs to have its pre-registration done on the MODEC´s Vendor Portal if this is the first access. If needed: www.modec.com/gysuppliers
3. Once pre-registration is completed, the vendor shall proceed to RFI wall as per the address mentioned on step 1, and then after a validation on the Tax Id reference and email (used for the pre-registration) the form will be opened, and answers will be accepted.
4. Vendor shall receive a confirmation when EOI is submitted.
5. Vendor shall monitor email notifications with updates about MODEC Guyana Inc evaluation for the EOI´s received and applicable shortlisting for competitive process.
6. Please submit your final response with RFI form/EOI no later than 12/4/2026.
