

## FIELD POSITIONS Georgetown, Guyana

### About Us

We are Schlumberger, the leading provider of technology and services to the energy industry across the world. Throughout much of the oil and gas lifecycle in over 170 countries; we design, develop, and deliver technology that transforms how work is done.

We specialize in reservoir characterization, well construction, production, and processing and offer the most comprehensive range of products and services in the industry. We're looking for innovators who share our passion for discovery to help take us into the next generation of energy. We'll get there doing what we've always done; harnessing our talented people's energy and giving them the platform to do truly outstanding work.

We are built on leadership, science, and innovation and always aim to extend the technical limits of our industry. We hire the brightest and most-driven minds in engineering, science, technology development, and commercial roles to do that. As we continue to adapt our organization for the future, collaboration between these areas is essential. Wherever you join us, you'll be part of a global community of colleagues working together to realize ambitious goals and sharing real pride in what we accomplish.

Here, you will discover what you can really do. We'll support you with world-leading learning and development, a meritocratic culture, and our borderless careers structure that ensures you build skills by continually taking on work that challenges you.

If you want to help shape the future of energy and push the limits of what's possible, then this is the place for you.
