

## Position Title: Asset Integrity Program Manager

### About Us:

We are a leading technology provider to the traditional and new energies industry; delivering fully integrated projects, products, and services. With our proprietary technologies and comprehensive solutions, we are transforming our clients' project economics, helping them unlock new possibilities to develop energy resources while reducing carbon intensity and supporting their energy transition ambitions.

### Description:

The Asset Integrity Management (AIM) Specialist will be part of a multidisciplinary team supporting the execution of major AIM programs for client operational assets. This role will support the execution and delivery of various AIM tasks/scopes, from project execution through the Life of Field (LoF), within the Guyana organization. The AIM Specialist shall be expected to effectively interface with TFMC, partner and client teams to deliver routine to moderately complex AIM scopes.

### Responsibilities:

- Guyana Services AIPM with the execution of AIM tasks and scopes
- Able to interface with multiple disciplines (internal and external) to further the completion and delivery of AIM tasks
- Review and develop awareness of standards (internal, client, and industry), tools, and training materials for AIM methodologies
- Support the development and execution of AIM philosophies and strategies; including risk assessments, inspection planning and review, PSM procedure planning and review, and anomaly management
- Support the development of inspection methodologies and subsequent inspection and maintenance procedures for subsea production systems

### Requirements:

- Guyanese national
- Bachelor's Degree in Mechanical Eng., Electrical Eng., Petroleum Eng., or related discipline preferred
- Field experience preferred
- Knowledge of Oil and Gas and/or Subsea equipment preferred
