

## VACANCY: Fuel Bunkering Attendant

**Description:** We are currently seeking an experienced Fuel Bunkering Attendant to assist in the safe and efficient operation of the fuel plant and the supporting equipment and systems.

**Job Type:** Long Term Role with 12-hours shift schedule

### Qualifications

Interested candidates are required to have:

- Two (2) years' experience in a related position and environment with knowledge of the methods, techniques, and practices of water/wastewater treatment
- Experience / Training as Load Handler
- Basic knowledge of MS Office
- Technical capacity
- Able to organize, plan and execute work effectively, independently and within teams
- Able to work well under pressure and meet deadlines
- Self-starter (willing to take initiative rather than waiting to be told what to do)
- Knowledge of PPE and basic safety precautions

### Duties

The successful candidate will perform duties such as:

- Attend to physical fuel deliveries in coordination with operational guidelines and schedules
- Regularly inspect equipment and monitor operating conditions, gauges, and meters
- Perform periodic safety inspections on the marine fueling system and fuel dock receptacles and hoses
- Calibrate, operate, and maintain sensitive electronic data collection devices necessary for the fuel plant / Maintain accurate metering and reconciliations
- Instruct vessel crew in the proper methods for performing fueling operations and supervise dispensing of fuel products
- Adhere to regulations and ensure safety standards are met
- Adhere to written operating procedures for shutdown and start-up of equipment
- Keep written records and reports as required by management
- Other duties as assigned

## Remuneration

Compensation will be based on academic qualification and experience.
