

QUALITY CONTROL INSPECTOR – INTERN LEVEL I

PPI Quality & Engineering is currently recruiting for a Quality Control Inspector Intern to provide oversight at various construction and vendor facilities throughout Guyana for a long term, major project.

The QC Inspector Intern will be located, onsite at our client site base(s) across Guyana attending Construction, Fabrication, Quality & Health and Safety Monitoring of Pipe, Subsea, Drilling and Completion Equipment monitoring for our clients. The initial function of this position will be to work as directed for a Senior QC/QS Specialist in our Onshore Team. Technical specialist training will be on going thus a career minded candidate is required.

This is an exceptional opportunity to join a highly successful company, focusing on highly specialized and interesting projects.

With PPI Quality & Engineering, you will gain experience in a global organization, advancement in training, long-term project skills with a world leading Company, and excellent compensation.

ROLES & RESPONSIBILITIES

- Assist / shadow the site management Quality Team through the full project phase(s) from proposal to contract close out including all required close out reporting (planning, resourcing, material receipt, change control, Health & Safety, Quality / Inspection, Pre-Commissioning, Site integrity / Site acceptance testing verification & safe execution / Load out of equipment).
- Demonstrate capabilities of running projects from Construction material receipt to safe execution and load out of Company manufactured items.
- Direct liaison with Project Quality Team, deal with major supply chain – delivery of products whilst saluting all quality and safety expectations in accordance with company and client policies.

MINIMUM REQUIREMENTS

- Knowledge of the structure and content of the English language including the meaning and spelling of words, rules of composition, and grammar.
- Possess excellent communication skills to convey information to contractors and colleagues effectively.
- Knowledge of Industry Codes and best practice.
- Knowledge of Site functions - Welding, Safety, Fabrication, NDT, Quality Assurance & Quality control measures, SIT / SAT Function testing & rigging.
- Maintain a positive "can do" outlook, rebound quickly from frustration and unpleasantness, and maintains composure and friendly demeanor while dealing with stressful situations.
- Diverse and good sense of urgency and good attention to detail.
- Adept computer skills in Microsoft 365 and online communication.

DESIRED QUALIFICATIONS

- Ideal candidates will have experience within the Construction and Oil & Gas industries and hold formal qualifications in Engineering or Construction.
- API, AWS CWI, NACE & ASNT NDT certification will be an asset.

QUALIFIED CANDIDATES INTERESTED IN THIS POSITION SHOULD SEND THEIR CV'S FOR CONSIDERATION TO

CINTRA.RAMDHAN@PPIQUALITY.COM

ALL QUALIFIED APPLICANTS WILL RECEIVE CONSIDERATION FOR EMPLOYMENT WITHOUT REGARD TO RACE, COLOR, RELIGION, SEX, AGE OR NATIONAL ORIGIN.
