Join Us At MODEC

About us

MODEC is an Oil & Gas Japanese Company that has been a leading provider of solutions to the floating offshore oil & gas market for more than 50 years. With a fleet of 19 units operated by the company and nearly 50 projects delivered worldwide, we have the mission to produce oil and gas steadily and safely, 24 hours a day, 365 days a year.
Our presence in 15 countries and the integration of our teams around the world give MODEC the opportunity to develop and share a high level of skills. Come join us! #bemodec

Job description

Job Title: Turbine & Combined Cycle Engineer
Department Name: Technical Services
Location: Georgetown, Guyana
Full / Part Time: Full time
Regular / Temporary: Regular

Responsibilities

- Ensure maintenance activities comply with sector regulations, MODEC guidelines, and internal standards, including the use of the Integrated Management System (IMS) and Computerized Maintenance Management System (CMMS).
- Act as the primary onshore contact for breakdowns and troubleshooting, delivering prompt technical assistance to offshore personnel.
- Support the effectiveness of process safety barriers by monitoring key performance indicators (KPIs) and recommending technical actions to maintain operations within ALARP (As Low As Reasonably Practicable) levels.
- Participate in offshore visits as required to support maintenance activities and strengthen coordination between onshore and offshore teams.
- Contribute to the planning and execution of equipment and unit shutdowns or decommissioning as required.

Requirements

- Bachelor's Degree of Engineering is required.
- Experience in the Offshore/Onshore Production Process on Oil& Gas or similar Industry is expected.
- Power BI and Microsoft Office Package (advanced) is required.
- CMMS systems knowledge is a competitive edge.
