

VACANCY: Maintenance Manager

Description:

The maintenance manager will have responsibility for ensuring functionality of all equipment onsite. These include pumps, pressure washers, generators, forklifts and vacuums as well as ensuring quality control and document control. You must therefore ensure that all managers, process owners and supervisors develop and maintain their part of the quality management system. Provide management with statistics regarding operation of all equipment, defects and corrective actions.

Minimum Qualifications:

- Bachelor's degree in Engineering, Facility Management, or a similar field is preferred
- High school diploma or equivalent qualification

Experience and skills:

- A minimum of 5 years' experience in a Maintenance Leadership position
- Good understanding of technical features of electrical systems, mechanical and plumbing
- Strong knowledge of facilities, machines and equipment
- Excellent Verbal & Written Communication skills

Remuneration:

Compensation will be based on academic qualifications and experience.

Only shortlisted candidates will be contacted.

Applications along with three (3) professional references should be emailed to

jramprasad@etsigy.com

CLOSING DATE FOR APPLICATIONS: 23 April 2023.
