

Guyana Deep Water Operations Inc , a subsidiary of SBM Offshore is preparing for the potential execution of the Prosperity FPSO, to be located offshore Guyana.

SBM Offshore provides floating production solutions to the offshore energy industry, over the full product life-cycle. The Company is market leading in leased floating production systems with multiple units in operation, one of the units being already producing offshore Guyana.

The Company's main activities are the project management, design, supply, construction, installation and operation of complex Floating Production Storage and Offloading (FPSO) vessels.

It is our commitment to develop the local industry and grow sustainable capacity, within the time frame of the project, focusing on Guyanese workforce, products, contractors and suppliers to support the project in order to provide a sustainable benefit for local communities, without jeopardizing the HSSE of our personnel and Quality of our facilities.

Guyana Deep Water Operations Inc is looking for potential contractors to express interest in qualifying and bidding the below manufacturing opportunities in Guyana.

Bid package identification	Manufacturing package description	Comments
