

BCQS International**Request for Information – pre-qualification of suppliers****Scope of services:**

Generators at residential properties – preventative maintenance, repairs and refueling services

Description:

BCQS international is seeking to identify suppliers who can provide preventative maintenance and repair services and refueling of generators at residential properties.

These services will include refueling of generators, preventative maintenance and additional repairs based on client requirements. Suppliers must be able to provide qualified personnel and meet high safety standards as well as have the necessary equipment to undertake the services.

For all information, please visit www.centreguyana.com. Interested parties must complete the pre-qualification questionnaire and submit to dperdomo@bcqs.com and samin@bcqs.com no later than 18th January 2021.

All interested companies must be registered with the Centre for Local Business Development in Guyana via www.centreguyana.com or visit the center directly.
